

To Our Residents and Family Members:

8/5/21

We want to inform you that we have received confirmation that an employee at Saint Francis Rehabilitation and Nursing Center has been diagnosed with COVID-19. All residents and staff will be COVID tested today. We will continue to test residents and staff until we have no new positive cases for 14 days. We have notified you by text and are now following up with this letter. Resident safety is our top priority. We are doing everything we can to ensure we stop any spread of COVID-19 within our facility, including staying in very close communication with local and state health officials to ensure we are taking all the appropriate steps. Indoor visitation on the 4 West unit is suspended at this time. You may contact Kristy Egan at ext. 126 to book an outside visit.

Please be advised that all visitors must now wear masks during indoor visitation at all times, regardless of vaccination status.

We need your help in battling COVID-19. Please visit the [Centers for Disease Control and Prevention \(CDC\) website](https://www.cdc.gov) to learn how you can help prevent the spread in our community.

We will continue to provide you with updates as they become available. Please know that we are strictly adhering to all directions from the local and state health department.

Sincerely,

Katie Joyce,
Administrator
